- 3 次の文は、中学 3 年生のマコトさんがあるテーマで発表したスピーチです。英文を読んで、次の各問いに答えなさい。

We will graduate from this junior high school soon and start our new school life. Imagine the new life. A lot of wonderful things are ㉞wait for us. What are you doing? Do you want to belong to any club activity? Do you want to study hard? Do you want to try something new? Everyone has different goals. ㉟I want to try some things and will talk about them.

First, I'm going to join the brass band club in high school. I'm a member of the brass band club and have ㊱play the flute for three years. The most exciting memory of junior high school is the music contest. Though we didn't get any prize, we were happy because we ㊲do our best. I learned not only about music, (I) also the importance of ㊳help each other. I will have different members in high school from now, but I'm excited to see new members.

Second, I will study harder. We have more kinds of subjects in high school and everything is going to be more difficult. Do you like studying? Actually, I don't. Many people say they don't know why it is important to study at school. Have you ever thought about ㊴it? My opinion is this: When we grow up, most of us are going to work. I think there are a lot of things we must do and some of them are things which we don't like. I don't want to give up those things. Through studying, we can get a positive way of thinking when we try difficult things. So we have to study hard at school. I ㊵(to / learn / would / more / like) about English. In the future, I want to work around the world and communicate with musicians from different countries. I can talk about different cultures and information about music. In order to do that, I think I have to study ㊶other subjects, too.

For these reasons, I'm really (II) forward to my new life. Of course, I like my junior high school and classmates. I'm sure I will miss you all. Let's enjoy our school life together until we graduate and get ready for the new life. What do you want to try at high school? I'll be happy if you get some idea from my speech.
